

CIMAR ride-on power trowel comes with twin stick multidirectional steering system that provides precision control and full maneuverability. The machine is suitable for trowelling large floor area with consistant smooth and precise finishing.

CRT836

Model	CRT836
Weight	340kg
Blade Speed	75-150rpm
Working Dia	1910mm
Overlapping	No
Power	16.5kW/22.1Hp
Engine Type	HONDA GX690
Dimension	2520x1320x1540(mm)

CRT1046d

Model	CRT1046D
Weight	752kg
Blade Speed	75-150rpm
Working Dia	2480mm
Overlapping	No
Power	32.8kW/44Hp
Engine Type	KUBOTA DIESEL
Dimension	2650x1350x1550(mm)

JWN24HTCSL

The MultiQuip JWN is a non-overlapping twin rotor 36-inches (914mm) ride-on trowel. Features like a constantly variable transmission, twin pitch control and a durable GX690 Honda engine will enable this model to deliver years of trouble free service.

Model	JWN24HTCSL
Engine Type	Honda Gasoline GX690
Engine Cooling Type	Air
Blades Per Motor	4
Rotor	180rpm
Path Width	190.5cm
Fuel Tank Capacity	18.9L
Dimension	1955x990x1270(mm)
Weight	336kg

HHXDF5

The MultiQuip HHXDF5 dual fuel ride-on trowel delivers all the features contractors demand with the additional option of running on gasoline or LPG. The new Kubota WG972 engine delivers the power, durability and performance required for today's ever changing customer needs.

Model	HHXDF5
Engine Type	Kubota
Engine Cooling Type	Hydraulic
Blades Per Motor	6
Rotor	180rpm
Path Width	233cm
Fuel Tank Capacity	10L
Dimension	2490x1270x1370(mm)
Weight	750kg
