

**CPM 120****CPM 120SS**

With modular structure, it's very convenient to disassemble and adapts to operate in narrow construction environment. The special optimized design for mixing leaves ensure to mix slurry fast and uniform. It has water pump configuration unit and water metering system that can control the water capacity for optimal material mix. With compact structure and also easy to move and use.

Model	CPM 120	CPM 120SS
Mixing Motor Power		1.5kW
Mixing Volume		120L
Mixing Speed		29rpm
Voltage		220-230v
Frequency		50Hz/ single phase
Dimension		580x530x1100(mm)
