

Cimar Bopu manufactured vibratory rollers consist of steerable front drum. It is suitable for small to medium asphalt and soil compaction jobs. With the steerable front drum, it makes compaction job simpler to the operator.

Model	QS1P-U00-00	QS0P-U00-00
Weight	850kg	1000kg
Travelling Speed	2.5km/h	7km/h
Excitation Force	20kN	20kN
Vibration Frequency	60Hz	65Hz
Drum Size	377x650(mm)	457x750(mm)
Water Tank	35L	50L
Transmission	Hydraulic	Hydraulic
Engine Type	Electric Start Kipor Diesel 186FE	Electric Start Kipor Diesel 186FE
